

PEERNET Convert to PDF 1.0

Create PDF files from any Windows application.

OVERVIEW

Problem:

You need a fast, reliable way to create PDF documents from the programs you use everyday.

Problem Solved:

Designed to work with any Windows program that can print, Convert to PDF gives you complete control over the PDF documents you create. Customize as you create with easily-accessed options. Streamline the creation process using Convert to PDF's One-Click capabilities. You'll be creating PDF files in seconds.

FREE EVALUATION

Try it before you buy with our no-obligation 30-day trial. The trial is **fully functional**, but all pages are stamped with the phrase "Evaluation Copy".

Product support is available for the duration of the evaluation. Contact our support team at support@peernet.com for any assistance.

SUPPORTED PLATFORMS

Both 32-bit and 64-bit operating systems are supported where applicable.

- ▶ Microsoft® Windows 7
- ▶ Microsoft® Windows Server 2008 R2
- ▶ Microsoft® Vista
- ▶ Microsoft® Windows 2008 Server
- ▶ Microsoft® Windows 2003 Server
- ▶ Microsoft® Windows XP
- ▶ Microsoft® Windows 2000
- ▶ Citrix® MetaFrame®

KEY PRODUCT FEATURES

Simple Interface	Quickly find the options you need to create the type of PDF you want. Change your PDF creation options on-the-fly, without having to print again.
One-Click Capable	For fast PDF creation, Convert to PDF can be set up in seconds to automatically create your PDF directly from the Print button of your application.
Works from any Windows Program	You only need one program to be able to convert from any Windows application. If you can print from your Windows program, then Convert to PDF can create a PDF.
PDF Security	Secure document contents by password protecting and restricting access to document contents.
Create Custom Printers	Routinely create PDF files with different security options and page sizes using custom printers.
Control PDF Size	Find the right balance between size and quality with complete access to image compression, downsampling and font embedding options.
