

# PEERNET Raster Image Printer 11.0

Convert any document into image and PDF files!

## OVERVIEW

Creating images and Adobe® PDF files using the Raster Image Printer is as simple as printing to your desktop printer. Just print your document to the Raster Image Printer to create the file of your choice. This makes it a snap to convert Microsoft® Office documents, emails, accounting spreadsheets, legal files, architectural and engineering documents from CAD software - whatever type of file you need to convert.

With a wide range of fax options, including both monochrome and color fax, Raster Image Printer is ideal for creating fax format TIFF images and PDF files. Other options include endorsements, file splitting, custom file naming, compression, custom paper size, trimming, cropping and resampling.

## FREE EVALUATION

Try it before you buy with our no-obligation 30-day trial. The trial is fully functional, with the exception that all pages are stamped with the phrase "Evaluation Copy" until purchased. Product support is available for the duration of the evaluation period.

## SUPPORTED PLATFORMS

Both 32-bit and 64-bit operating systems are supported where applicable.

- Microsoft® Windows 10
- Microsoft® Windows Server 2016
- Microsoft® Windows 8, 8.1
- Microsoft® Windows Server 2012, Server 2012 R2
- Microsoft® Windows 7
- Microsoft® Windows Server 2008 R2
- Microsoft® Vista
- Microsoft® Windows Server 2008
- Microsoft® Windows Server 2003
- Microsoft® Windows XP
- Citrix® MetaFrame®

## KEY PRODUCT FEATURES

<a href="#">Save Options</a>	Save your documents as JPEG, TIFF, PNG, as a PDF file, or one of the other supported image formats. Easily create serialized files (one image per page per file) or multi-paged files (all images in one file) and use the Append feature to combine files or to create sequences of images. File splitting can be used to create sequences of files based on file size or page count.
<a href="#">Custom File Naming</a>	Pre-set the file name and where it will be saved or have the driver prompt you each time. Advanced file naming can be used to set customized naming conventions.
<a href="#">Color and Monochrome Fax</a>	Produce fax-ready images using standard fax profiles. New fax scaling and alignment options give you complete control over the fax image you create.
<a href="#">Compression Settings</a>	Individual compression settings for JPG and TIFF images, and full compression options for PDF files combine to give you full control over the file size of your output.
<a href="#">Page Processing</a>	Take advantage of the built-in page processing features - auto-rotate your pages, crop sections of your page, automatically trim the margins and adjust the page brightness in one easy step.
<a href="#">Image Processing</a>	Copy each page of the document to a larger or smaller page with full alignment options. Resample each page to a particular width and height in pixels, as a percentage of the original size, or by setting a new image resolution (DPI).
<a href="#">Endorsements</a>	Add header and footer endorsements such as text and page numbers to your pages as you create them. Font style, size and color can all be customized.
<a href="#">Custom Paper Size</a>	Supports user-defined paper sizes allowing virtually any size paper, including large paper sizes for use in AutoCAD programs.
<a href="#">Run Programs and Commands</a>	Specify commands to be run at the start of the print job, at the end of the print job, at each page, and on file close.
<a href="#">Text Extraction</a>	Includes text extraction capabilities with support for creating ASCII, UTF-8, and UTF-16 encoded files.

## SUPPORTED IMAGE RESOLUTIONS

Raster Image Printer can create the following types of images and files:

Output File Type	Serialized	Multipaged
Adobe PDF (*.pdf) Optionally PDF/A-1b compliant	•	•
TIFF (*.tif)	•	•
JPEG (*.jpg)	•	
CompuServe PNG (*.png)	•	
CompuServe GIF (*.gif)	•	
Windows BMP (*.bmp)	•	
Adobe PhotoShop 3.0 (*.psd)	•	
TARGA (*.tga)	•	
ZSoft DCX (*.dcx)	•	
ZSoft PCX (*.pcx)		•

Image Resolutions		
50x50	60x60	75x75
100x100	120x120	150x150
200x200	240x240	254x254
300x300	360x360	400x400
600x600	720x720	1200x1200

Fax Resolutions	Profile S	Profile F	Profile C
100x100		•	•
200x100	•	•	
200x200	•	•	•
204x98	•	•	
204x196	•	•	
204x391		•	
300x300		•	•
300x600		•	
400x400		•	•
400x800		•	
408x391		•
